Location/Address: BOYD RD

Narrative:

Caller wanted to have it documented some odd things that have been going on. I told her I'd create a CAD and she was fine with just that. She said that in the past 2 days there has been glass placed on her property. Two days ago there was a piece of glass that was placed in her driveway. No other glass around, just the one piece. She noticed today that there was a bunch of small pieces of broken glass littered on her front garden by the road. It was multiple colors of glass, how she described as a wide spread circle. She does have a ring camera but it does not see the area in which she describes. She also noted that since the fence, from her property and the parking lot, has been knocked down (2yrs ago) and reported to the city, this is when things started happening. Not sure if the two have any relation but the caller seems to think so.
