

ADDENDUM #1

JULY 17, 2009

RFP # 05-10

PUBLIC WORKS PARKING DIVISION  
PAY AND DISPLAY PARKING METERS

**To the attention of all vendors submitting proposals for RFP #05-10 Pay and Display Parking Meters.**

Below are the questions submitted before the July 16<sup>th</sup> deadline to submit questions. The answers have been provided to the best of our ability relating to RFP #05-10 Pay and Display Parking Meters. All else remains unchanged from original request for proposal document.

Question #1: The Introduction to RFP # 05-10 states a goal of installing 60 meters over 3 years: 30 by the end of 2010, 19 in 2011, and the remainder in 2012. Please explain page 2, Delivery: "The Price Proposal Form should be completed to indicate the proposed delivery date. The City requires that the successful proposal include a delivery date within two months of contract execution".

Answer: This question pertains mainly to the delivery of the initial installment that would be purchased this summer. The answer for the following years would be delivery time upon completion of that year's purchase order.

Question #2: Can you please specify how many Cale MP 104 units you currently have in place for the Pilot Program?

Answer: 13 meters installed at this time

Question #3: Will the City be connecting via wireless, wired, or WiFi connection?

Answer: no plans for that function at this time.

Question #4: Can the City confirm that the machines are to be A/C or battery powered?

Answer: battery

Question #5: The Cale 104 has a pedestal. Will the approved equivalent require the same dimensions and pedestal configuration?

Answer: not necessary to meet the same dimensions on the pedestal

Please acknowledge receipt of this addendum within your proposal, failure to do so may subject a bidder to disqualification.
