PLANNING BOARD WORK SESSION ON ZONING AMENDMENTS, MON AUG 8 at 6:30 PM

-- In-person at City Hall Council Chambers or via Zoom. On April 18, 2022, the City Council approved the regulatory amendment work plan which includes three phases of zoning amendments focused on advancing the city's goals and diversifying the housing stock. Phase 1 amendments are focused on improving the structural foundation of the Zoning Ordinance to address conflicts and gaps in the regulations and to adjust ambiguous sections that have resulted in unintended outcomes.

Phase 1 Amendments include the following:

1. **Building Height Map.** Assign standards to new streets, modify streets and add building heights for civic and municipal properties.
2. **Building Height Standards.** Clarify the building height standards for corner, through or waterfront lots.
3. **Civic Districts.** Apply the CD4 development standards to civic properties.
4. **Definitions.** Add definitions for public places and modify definitions relating to the measurement of building height.

Phase 2 Amendments will be focused on updating city Accessory Dwelling Unit regulations. The Public Involvement Summary Report can be found [here](#).

INFO OPPORTUNITY FOR NONPROFITS AT ECO DAY AT PORTSMOUTH FARMERS MARKET SAT AUG 13

– Seacoast Eat Local plans to host a special “Eco Day” at the farmers’ market on August 13th as an educational event for the public using space not filled by vendor stalls. ENERGY EFFICIENCY TIPS AND PAYMENT HELP

– On **Aug 1**, New Hampshire electric supply rates increased to more than double last August's supply rate. This significant rate increase is due to record-high natural gas prices and the global economy. Natural gas is the primary fuel for generating electricity in the region. Eversource offers the following suggestions for keeping costs down this summer and details on payment plans for those who need assistance.

- Use the new [Cooling Calculator on Eversource.com](#) to understand how much electricity their current cooling system uses.
- Keep air conditioners set at or near 78 degrees For every degree higher on the thermostat, the air conditioner will use 1-3% less electricity.
- Keep air vents clear of obstructions such as furniture, curtains and rugs.
- Operate major appliances during the cooler parts of the day when there is less demand on the electric system.
- Using curtains, shades, and blinds can lower indoor temperatures by up to 20 degrees.
- Switch to ENERGY STAR® certified LED lights which run cooler and last up to 25 times longer than incandescent lights.
- Set ceiling fans to rotate counterclockwise and at a higher speed in the summer.
- Look for the ENERGY STAR rating when purchasing new appliances including air conditioners. An oversized or undersized AC unit is less effective and uses more energy.

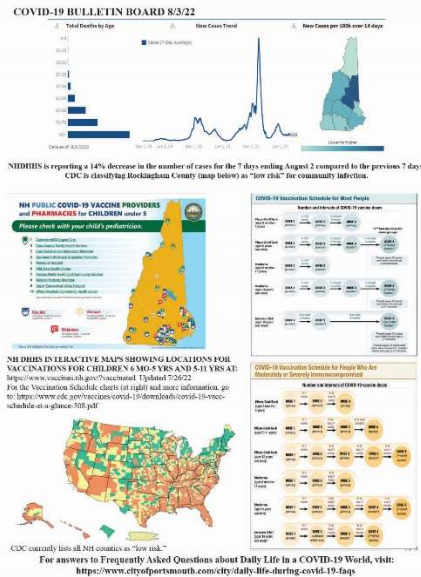

Help is available for customers who need it:

- **Budget Billing Plan** – to avoid seasonal spikes
- **Discount Rate** – for customers who meet certain income guidelines
- **Flexible Payment Plans** – to pay past-due balances over a period of time and protect from service interruptions.
- **New Start** – Income-eligible customers can reduce or eliminate their enrolled, outstanding balance in as little as 12 months when they make on-time monthly payments and Eversource will make up the difference.

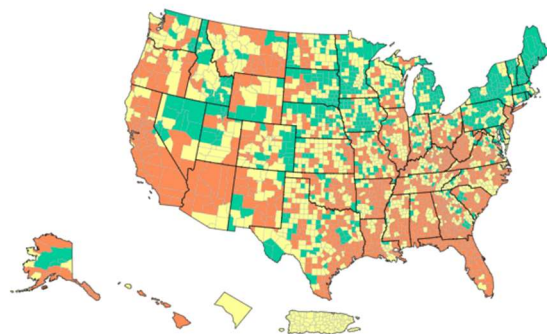

Regardless of financial need, customers are eligible for various payment programs and are urged to call Eversource at 844-273-7760 or visit Eversource.com/billhelp to find the right plan for them. To learn about the many energy saving programs available, visit Eversource.com.

PORTSMOUTH DPW WASTEWATER SAMPLING FOR COVID-19

VACATIONING? KNOW BEFORE YOU GO WITH CDC TOOL FOR ASSESSING COMMUNITY RISK (ROCKINGHAM COUNTY LISTED AS "LOW") -- CDC recommends using its online tool -- [COVID-19 Community Levels](#)

based on hospital beds being used, hospital admissions, and the total number of new COVID-19 cases in an area. Map as of June 22, 2022.

Note: There is concern about the infectiousness of COVID-19 variant Omicron BA 5 which now accounts for 95% of all COVID-19 cases in the US.

<https://tinyurl.com/4khcxwmj>

Vaccination does not prevent infection but does significantly reduce the impact, severe illness and hospitalizations. In the current "community transmission" map above, CDC now considers most of the southern half of the country as "high risk."

EMERGENCY RENTAL & UTILITIES

ASSISTANCE – The [NH Emergency Rental Assistance Program](#) (NHERAP) provides funds to renters who cannot pay their rent and utilities during the pandemic. The program works with tenants and landlords. Program changes as of October 1, 2021:

- Households may qualify for assistance for past-due and future rent and utility payments for a period not to exceed 18 months.
- At least one person in the household must have qualified for unemployment benefits, had their income reduced, had significant costs, or had other financial hardship during the pandemic. Certain income requirements must be met.

WHAT THE PROGRAM COVERS

- Past-due rent including reasonable late and legal fees.
- Three months of future rent payments if needed for housing stability.
- Utilities, such as electricity, home heating costs, water, sewer, trash.
- Other housing-related costs such as internet and relocation expenses (including rental application fees, utility hook-up fees, and security deposits).
- Households may qualify for utility assistance even if they do not receive or need rental assistance.

For more information on whether you qualify and how to apply for emergency funds available to renters in NH, click here: <https://www.capnh.org/covid19>
The Consumer Financial Protection Bureau (CFPB) has also launched a tool (click here: <https://tinyurl.com/4hawaxf4>) that allows renters and landlords to find rental assistance programs in their area. Applications are handled through NH Community Action Partnership (CAP).
